Macau Grand Prix Organising Committee  
Macau Government Tourist Office  
Largo do Senado, 9  
Edificio Ritz M/F,  
Macau

Dear Engineer Costa Antunes,

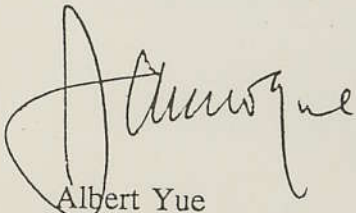

Congratulations on a very successful 39th Macau Grand Prix.

I would like to thank your Committee, TDM and its crew for producing an excellent television coverage of the event.

Since my role with the Macau Grand Prix relates to the sponsors and advertisers, I have the opinion that the camera coverage should strike a balance between the coverage of the race as well as advertising. I am pleased to see that such a good balance is maintained in this year's coverage. The camera angle has opened a bit wider to accommodate the exposure of advertising signages at the strategic locations. I have received good comments from satisfied advertisers and this is very important towards attracting their patronage next year. The tape of the coverage is also a good tool for us to attract new advertisers.

I hope such balance can be maintained in the future years. I am confident that with such cooperation and experience, we can gain more advertising revenue to help expand the success of Macau Grand Prix.

Yours sincerely,

Albert Yue
